EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The title of the application has been changed to "METHOD OF INJECTION MOLDING A PREFORM INCLUDING A RADIALY EXTENDING ELEMENT".

Claim 5 is allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a method of injection molding a plastic preform for subsequent blow molding into a container wherein a plurality of finish blocks and a plurality of mold bodies are axially advanced while closed and wherein a core portion is in a fixed position on at least one of said plurality of mold bodies and wherein the fixed core portion on at least one of said plurality of mold bodies, in cooperation with a pocket in at least one of said plurality of finish blocks, defines a cavity for the radially extending element in combination with the other features instantly claimed.

The examiner regards Grant (U.S. Patent 5,662,245) as the closest prior art. Grant (U.S. Patent 5,662,245) discloses a method of producing a plastic container including a container body and a closure (Abstract; col. 10, line 34-col. 11, line 31). In

Art Unit: 1732

the method, Grant injection molds a preform for subsequent blow molding into a container with a closure. The mold contains a plurality of mold parts (Figure 29, element (104), (105), (106), (107), (108), (110), and (112)). Elements (106) and (107) contain fixed core portions that partially define a cavity for a radially extended element. However, these elements are "finish blocks" and not "mold bodies". Additionally, Grant does not teach or suggest the finish blocks and mold bodies are axially advanced while closed to define the cavity for the radially extending element. As such, the instant claim distinguishes over the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff Wollschlager whose telephone number is 571-272-8937. The examiner can normally be reached on Monday - Thursday 7:00 - 4:45, alternating Fridays.
